the chemical constituents of fat were determined. In 1810 palm and coconut oils were largely introduced by French soap manufacturers, and in 1820 they came into use for candle making. The year 1853 was a great epoch in soap-making, Leblanc's method of producing soda from common salt having revolutionized the trade. The process is now carried on in England on an enormous scale, and nearly all the soda used for making soap is thus obtained. In 1831 the process of breaking up fat and separating the acids was discovered, and the consequent more ready combination of the oleic acid. In 1843 this process came into active use. In 1851 a marked advance was made by manufacturers buying their caustic alkali instead of making the old lime solution. Glycerine is added to toilet soap on account of its soothing, emollient action. Soluble glass or silicate of sodium, the addition of which was patented in 1855, is a feeble alkali, and has considerable detergent power itself and acts mechanically. Borax, borate of sodium, immense quantities of which are produced in California, is added to soap with great advantage for laundry purposes. Other articles, as aluminate of sodium, made from cryolite, lower the intrinsic value of soap.

Sentimental Song.
Hawkeye. The latest agony in songs is a tender ballad beginning:
Who will come above me singing,
When the grass grows over me?
We can't say, possibly who, but if the cemetery fence is in the usual repair, it will probably be the cow.

TUESDAY, JULY 9, 1878.

CITY AND COUNTY.

TO WHOM IT MAY CONCERN.

The notes and accounts due Billitt & Colvin have been divided between them, each taking his portion. Those which are held by James Billitt have been placed in the hands of Mr. B. F. Dunwiddie for collection, and the undersigned has no further interest in them.

R. L. COLVIN.

BRIEFLETS.

—Keep cool if you can.
—Everything is "transpiring."
—July should wipe off its chin.
—The weather is talked about so much that it has a right to get mad about it.
—Burr Robbins is not to take his circus to St. Paul this season, but is to strike toward the West.
—Joe May, of Steubenville, Ohio, formerly of Sonneworn & May, is in the city, visiting friends.
—Heitman, the meat man, smiles all over when he tells about his new boy. Mother and child are doing finely.
—A dispatch from Burr Robbins today states it was not Milford who was hurt by the hand wagon tipping over, but another man.
—The assessment rolls for 1878, as foisted upon show the real estate of the city to be \$2,467,815, and the personal property \$1,282,255, making a total of \$3,750,070.
—Darius Allen, who had such a spree in Janesville last winter, and who has since been lecturing as a reformed man, is now in Penn Yan, New York, talking on temperance.
—Mr. Charles Wheelock, of South Bend, Indiana, where he has a prosperous crockery business, arrived in Janesville to-day to attend the silver wedding of his father and mother, Mr. and Mrs. W. G. Wheelock.
—The pew rents of the Congregational church are now due for the quarter commencing July 1, and those who pay up before to-morrow night will save ten per cent. Mr. Isaac Farusworth is ready to receive the cash.
—The steamboat Lotos will start up the river at 1:30 o'clock to-morrow afternoon, going up ten miles and return. It will stop, both going and returning, at Crystal Springs, where the Milton folks will have a picnic to-morrow afternoon.
—There is talk of organizing a military company in this city. For the information of many who are discussing the matter, it is well to know that the State will not only furnish the necessary arms and accoutrements, but will also give such a company \$100 when it is organized, and \$300 a year for armory purposes.
—The Teachers' Association to be held at Geneva Lake commencing Tuesday, July 16, and continuing until the next Friday, promises to be one of unusual interest. Hon. J. B. Casseloy is down on the programme for a speech. Prof. Barton will also participate, and a number of teachers from this city are expected to be present.
—The first number of the Beloit Daily Record comes to us to-day, with the name of W. C. Cotes, as editor and proprietor. It is small but sprightly, and promises to furnish every evening an enjoyable dish of local news, and at the end of three months will enlarge. It starts out enthusiastically, and promises to fulfill its mission well. May success attend it.
—The stockholders of the Merchants' and Mechanics' Savings Bank met this afternoon and re-elected for the ensuing year the following directors: William Macdon, Dr. Henry Palmer, Seth Fisher, Levi B. Carle, A. H. Sheldon, David Jeffris, Frank Leland, H. G. Reichwald and A. A. Jackson. At the election of officers David Jeffris was re-elected President and H. G. Reichwald Cashier.
—Ed. Coe, the popular editor of the Whitewater Register, started for this city the other day, taking one of his children with him. On enquiring cars at Milton he was so absorbed in thinking up an editorial and looking after his valise, that he forgot all about the little child, and left it in the car crying for its papa. The attention of the absent-minded one was called finally to the fact that he was a father as well as an editor, and he hurried back to the car just in time to grab the child and jump with it from the moving train to the platform. If some of the poetical scribbles who spend their time in writing riddles about the weather, could only get up enough inspiration to describe the scene in verse, it would doubtless render them immortal. Coe should evidently spend a few days getting acquainted with his family, so that he would know when one of them was missing.

THE WEATHER.

The thermometer at 7 o'clock this morning stood at 81 degrees and at 2 o'clock 92 degrees above. One year ago to-day at corresponding hours the thermometer stood at 73 and 84 degrees above. The indications are, for Tennessee and Ohio valleys, stationary temperature and pressure, light southerly and variable winds, partly cloudy weather, and possibly occasional light rains.

HELPERS OF THE HEAVEN.

This afternoon the semi-annual meeting of the association of the Women's Foreign Missionary Societies, of Janesville District commenced at the First Methodist church in this city, the programme consisting of a missionary prayer meeting followed by a business meeting. The following is the programme for the evening, to commence at 7:45:
Singing. Reading Scripture. Prayer. Singing. Recitation by Miss Ella Hamilton, White-water.
Solo by Mrs. W. R. Follansbee, Janesville.
The Missionary and Temperance Work which they have to do with each other. Mrs. J. F. Harris, Janesville.
A Chinese Song, by Miss Frank Wheeler, Janesville.
Paper by Mrs. J. E. Irish, Monroe.
Singing by the Choir.
Prayer by Rev. T. Cliftmore.

A FINE EXCURSION.

The Temple of Honor will have a fine excursion to Geneva Lake on Tuesday, July 23. They will take the cars at the depot here at 7:30 o'clock, a. m., and will probably return so as to reach Janesville about 9 o'clock in the evening, which will afford

plenty of time to spend in picnicking. The tickets have been placed at the low price of \$1 each which is cheaper than any excursion rates ever before established. At this price none need stay away on account of lack of means, and the excursion will doubtless be a most successful one. The train will stop at Shopley, Clinton, Sharon and Harvard, and doubtless there will be many from those places who will gladly join the party. There will also be excursionists from Milton, Fort Atkinson and other places. The trip will be a highly enjoyable one, and the Temple itself is worthy of a very liberal patronage in this enterprise.

An Important Meeting of the Council Last Evening.

The Tax Levy for 1878, and Other Matters of Interest to Property Owners.

The Common Council held their regular semi-monthly meeting last evening at the City Hall, His Honor, Mayor Norcross, in the chair, all the Aldermen being present except Aldermen Hemming and McKinney.

The journal of the last regular and special meetings were read and approved.

Ald. Wilcox presented a petition of residents on North Jackson street, in Rockport, asking that certain obstructions in that thoroughfare be removed. The document was referred to the Highway, Street and Bridge Committee.

A number of accounts were presented and referred to appropriate committees.

Ald. Church, from the Highway, Street and Bridge Committee, asked and obtained further time to consider the Spring Brook bridge matter.

Ald. Fitzgibbon, from the Committee on Printing, stated that the chairman of that committee was absent, and he asked for further time to consider the matter of printing the report of the special committee on Water Works.

Ald. Vankirk stated that Ald. Hemming, the chairman, would not be present this evening.

Ald. Fitzgibbon then moved that five hundred copies be printed in supplement form, at a cost not to exceed the sum of fifteen dollars. Adopted.

Ald. Wilcox moved that a committee of three be appointed to confer with the Hydraulic Company, of Janesville, to devise a way by which water works could be built in this city this season, and that the committee report at the next meeting.

Ald. Fitzgibbon moved to amend by making the committee the whole Council. Ayes—Ald. Church, Davies, Fitzgibbon and Hutchinson—4.

Noes—Ald. Joyce, Lawrence, Vankirk and Wilcox—1.

The Mayor voted no and declared the motion lost.

Ald. Fitzgibbon moved to amend by making the committee six instead of three. Lost by the same vote as the first amendment.

Ald. Davies moved to amend by making the committee five, one from each ward, which was adopted, and the Mayor appointed Ald. Wilcox, Lawrence, Hutchinson, McKinney and Hemming as such committee.

Ald. Davies introduced an order for the construction of side walks on East River street, first ward, adjoining the old Novelty Works, which was adopted.

Ald. Church offered a resolution that the record of the council meeting held December 18, 1877, be amended so as to show that J. B. Fitzgibbon was employed by the Council to run the west side fire engine during the disability of Engineer Dresser.

The Mayor held that this motion was out of order, that this Council could not correct the journal of a Council that had expired, and cited several instances whereby litigation could have been avoided had the Council this power.

Ald. Church stated that he could show authority for this resolution, but not having the documents with him, the resolution was referred to the City Attorney.

Ald. Davies presented a bill of \$179, to reimburse him for expenses of the special committee on Water Works, in the late trip to Otrawa, etc. Referred to the Finance Committee.

Ald. Church offered an order instructing the City Clerk to charge back to A. A. Dresser, Engineer of the west side engine, the sum of \$34.36, the amount overdrawn by said Dresser at the time of incurring his disabilities last December.

Ald. Lawrence moved to refer the order to the committee on Fire Department. Adopted.

Ald. Church stated that teams could be procured to draw the fire engines for ten dollars per month, and that Carter & Robinson had proposed to furnish a team for the west side engine for that sum, and moved that the proposition be accepted.

Alderman Church stated that a team could be procured for the same terms for the east side engine; and that they would be as serviceable in case of fire. He charged the east side teamster with being out of the city on the 4th of July with his team, when he had been requested to remain in the engine house. Considerable discussion was indulged on this motion, by several of the Aldermen, when the motion was referred to the special committee appointed to consider the question of purchasing teams.

Ald. Wilcox called attention to damage done and likely to be done, in consequence of the imperfect water conductors and the drainage around the west side engine house. The matter was referred to the Fire Committee with instructions to repair the same.

Ald. Vankirk called up the order allowing engine company No. 1 to use the meeting room in their engine house as a sleeping room.

Mr. John Kelley, foreman of that company, explained to the Council his action in the matter, and the motive which led him to do so.

The order was referred back to Washington Engine Company and Rescue Hook and Ladder Company.

Ald. Lawrence, from the Finance Committee, reported back the June report of the City Treasurer as correct. Filed.

Also, reported in favor of allowing a

batch of miscellaneous accounts, which were approved.

Ald. Lawrence presented the Assessment Rolls for the year 1878, and moved the adoption, as the assessment rolls for the year 1878. Adopted.

Ald. Lawrence offered an order for the annual tax levy for the year 1878, which was adopted, and the following sums were named:

GENERAL TAX.	
General Fund.....	\$ 6,500 00
School Fund.....	15,500 00
Fire Department Fund.....	5,000 00
Highway, Street and Bridge Fund.....	500 00
Gas Fund.....	2,000 00
Judgment Fund.....	144 00
Bonded Indebtedness Fund.....	5,000 00
Interest Fund.....	5,500 00
Total.....	\$37,144 00
THE WARD FUNDS.	
First Ward.....	\$ 1,500 00
Second Ward.....	800 00
Third Ward.....	1,300 00
Fourth Ward.....	800 00
Fifth Ward.....	800 00
Total.....	\$ 5,500 00
Grand Total.....	\$42,644 00

On motion of Ald. Church permission was given to F. C. Cook to occupy a portion of West Milwaukee street in constructing his new building.

The Council adjourned.

FUN OUT DOORS.

The Active's accept their defeat by the Forest City's, of Rockford, with good grace, and are confident of their ability to turn the tables next time. The nine were, of course, somewhat fatigued after a five hours ride in the hot sun, and as the grounds at Rockford are peculiarly shaped it took them a few innings to get down to business. The Forest City's are a heavy batting nine, but the Active's, instead of being demoralized at the strong lead against them at the end of the second inning, went to work with a will and played a magnificent up-hill game, their base running being particularly fine. Evenson and Burdick make a strong team, and the entire nine, with a little more practice against first class clubs, will be fully equal to last year's Mutuals.

The score was as follows:
Innings.....1 2 3 4 5 6 7 8 9
Forest City's.....5 0 0 0 0 1 1 0-11
Active's.....1 0 2 1 0 0 0 0-4

The Rockfords will probably play the return game here on Friday of this week.

The shooting match to take place at Stoughton is to be a pig-on shoot, instead of a glass ball shoot.

The Peoria Reds defeated the Boston's yesterday by 3 to 1, the game being a good one on both sides.

At Daytonport yesterday the Milwaukee's scored 16 to the Daytonports 1.

The foot contest of O'Leary and Schmebl will commence to Chicago to-morrow night. O'Leary is to walk 275 miles in 75 hours, and Schmebl is to walk 250 miles in the same time.

CLINTON BURLIARIES.

Several burglaries were committed at Clinton last week. On the fourth of July while everybody was celebrating, the residences of Hans Larsen and P. Asleson, about six miles southeast of Clinton were entered and a large amount of men's clothing and other property was taken. Sunday last Officer Pratt tracked the supposed burglar to the residence of Dexter Northrop, two miles east of Clinton, and there arrested him. He gave his name as Frank Boland and had been at work for Mr. Northrop two days after being arrested he slipped away from the officer and a lively chase ensued.

Pratt who is over sixty years old chased the fellow two miles in the hot sun. A number of neighbors joined in the chase with horses and shot-guns. Charles Northrop, a young man, headed him off and the prisoner was recaptured and ironed.

He waived examination on the charge of burglarizing Larsen's house, and was held to trial in bond of \$300. To-day he was brought before Justice Balch to answer to the other burglary, and waiving examination was locked up in jail. He will doubtless plead guilty and get an early sentence. He says his friends live in Kansas. Most of the stolen property was found in his possession.

Liver is King.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is diseased in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want.

Beyond the Reach of Human Skill.

Is the power to restore the hair to bald heads when the bulbs at the roots are destroyed by age or disease; but there are doubtless many persons becoming bald, whose hair by careful attention might be restored to its original luxuriance and beauty. Parker's Hair Balsam is an elegant preparation, designed to meet the public want for a harmless hair dressing and restorative. It acts like magic, commencing at the very roots, removes dandruff and all humors from the scalp, and never fails to restore gray or faded hair to the original color, and the soft, rich and glossy appearance of youth. By its occasional use falling of the hair is immediately checked, and a luxuriant and beautiful growth of young hair induced. The exquisite perfume and the purity of its composition are highly appreciated, and as it is not a dye and does not stain the skin or clothing, it is a growing favorite of the toilet table everywhere. Buy a bottle from your druggist A. J. Roberts, Janesville, Wis., and test its merits.

"Dobbins' Electric Soap."

Having obtained the agency of this celebrated Soap for Janesville and vicinity, I am enabled to offer some of our best people to its merits. I have washed with Dobbins' Electric Soap made by L. C. Cragin & Co., Philadelphia, Pennsylvania, and pronounce it the best soap I have ever used. The rapidity and ease with which it enables one to do one's washing is really surprising. Boiling the clothes is entirely unnecessary and no rubbing is needed. I would not be without it.

I have no hesitation in saying that no housekeeper should be without Dobbins' Electric Soap. I can heartily recommend it, it is a charm in the wash-bowl.

As a time, labor and money saving article, I take pleasure in recommending Dobbins' Electric Soap to my neighbors. It promises, wonders and does all it promises.

I take pleasure in calling attention to the testimonials as we have just made arrangements with the manufacturers in Philadelphia, so that we can supply the trade at their lowest Philadelphia price.
